

# MARITIME NETWORK

The maritime cluster of Northern Jutland

Being part of the maritime cluster means contributing to increased innovation and operational synergies between the organisations.

MARCOD helps with:

- Network meetings
- Study trips
- Collaborative projects
- Membership surveys
- Maritime development trends
- Trade exhibitions
- Workshops
- Network strategies

MARCOD is a one point of entry to the maritime environment in Northern Jutland.

We support, facilitate and develop the networks by handling strategy processes, economy and communication, which are ways to strengthen the maritime industry.

MARCOD facilitates five maritime networks:  
including a total of approximately 260 members
